SUMMARY

Computer Science student with core foundation in data structures and problem solving. Experienced in implementing algorithms, developing academic projects, and analyzing data with a focus on learning new technologies. Actively learning new technologies and applying software engineering principles to build scalable and reliable solutions.

TECHNICAL SKILLS

Programming Languages: Java, Python(Basic)

Databases: SQL

Frameworks: Spring Boot

Concepts: Data Structure Algorithms, OOPS, Networking Fundamentals

PROJECTS

HireReady Hub

Dec 2025 – Present

AI/ML, NLP, Data Analysis

Built an AI-powered interview preparation platform with mock interviews, evaluation, and performance tracking.

Applied NLP for response understanding and ML-based answer evaluation with database integration.

Designed to improve student confidence and placement readiness.

ShopEase

April 2024 – May 2024

React, Node.js, Stripe

Built a full-stack e-commerce platform with secure online payment integration using the Stripe API.

Managed real-time shopping cart updates and state handling through Redux Toolkit.

Optimized application performance and ensured a responsive user experience across all screen sizes.

ACHIEVEMENTS

Coding Profile

Codeforces & LeetCode

1250+ rating on Codeforces - Link

100+ problems solved on LeetCode - Link

Jan 2026

Hackathons

Data - U - Biz

Reached Final Round

EDUCATION

VIT Bhopal University

Madhya Pradesh, India

B.Tech in Computer Science and Engineering

Sept 2023 – Present

Himalayan Residential School

Bihar, India

Class XII – 76%

2022

Don Bosco Academy

Bihar, India

Class X – 92%

2020

CERTIFICATIONS

• AWS Certified Solutions Architect – Associate

• AWS Technical Essentials - AWS Skill Builder

• AWS Certified Cloud Practitioner (CLF-C02-English)
